# WCK021-106CM Installation Instruction

Scan the code to purchase ES001

Please read this instruction manual carefully before installation and use.

Assembly notes:
1. First, make sure that all panels and parts are not damaged or missing.
2. During the installation process, be careful not to bump or scratch the panel surface.
3. Please read the instructions carefully before installation and install in order.
4. Please use each screw accessory strictly according to the instructions.
5. The slide needs to be split into two parts when in use. For the splitting method, see the slide instructions.
6. Please keep the packaging box in case of any problems. You can check the product model and production batch number printed on the outside of the packaging box.

Precautions after assembly:
1. After installation, check whether all parts are installed and the locks are locked.
2. Check the overall stability of the cabinet to see if there is any vibration.
3. When using the lock, do not use excessive force to avoid damage to the lock. Just turn it clockwise until it cannot turn.

NOTE: ES001 - 3 Speed Portable Cordless Electric Screwdriver is highly recommended for installation.
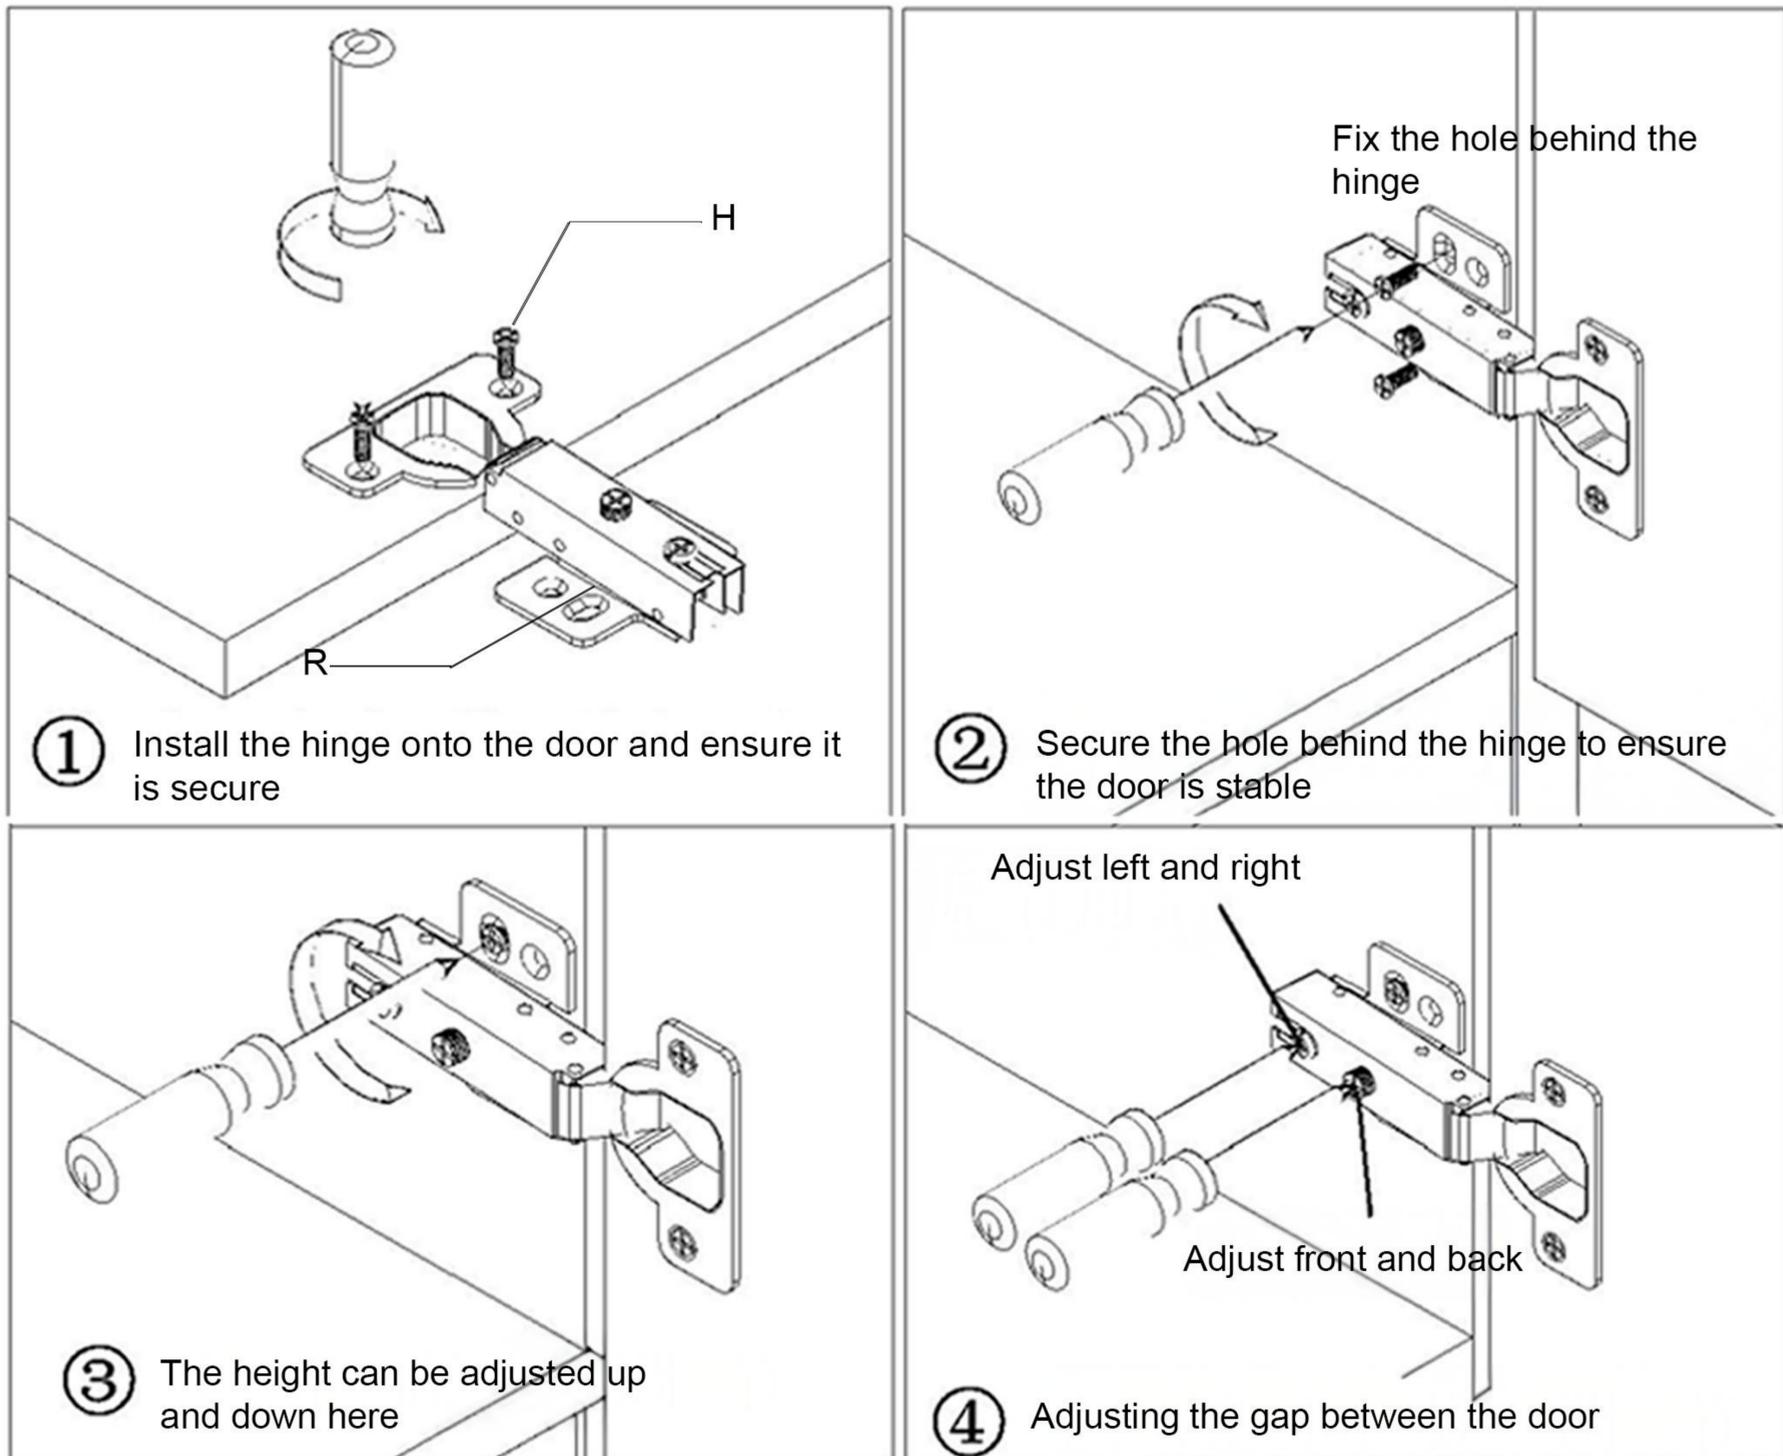

Hardware List

Accessory Appearance	Code	Dimensions	Numbers	Unit	Accessory Appearance	Code	Dimensions	Numbers	Unit

Detailed description of the main components, please read carefully

## R (Hinge) Installation Instructions
Install the hinge with screw H

H

R

① Install the hinge onto the door and ensure it is secure

Fix the hole behind the hinge

② Secure the hole behind the hinge to ensure the door is stable

③ The height can be adjusted up and down here

Adjust left and right

Adjust front and back

④ Adjusting the gap between the door

Detailed description of the main components, please read carefully

K (Hinge) Installation Instructions
Install the hinge with screw H
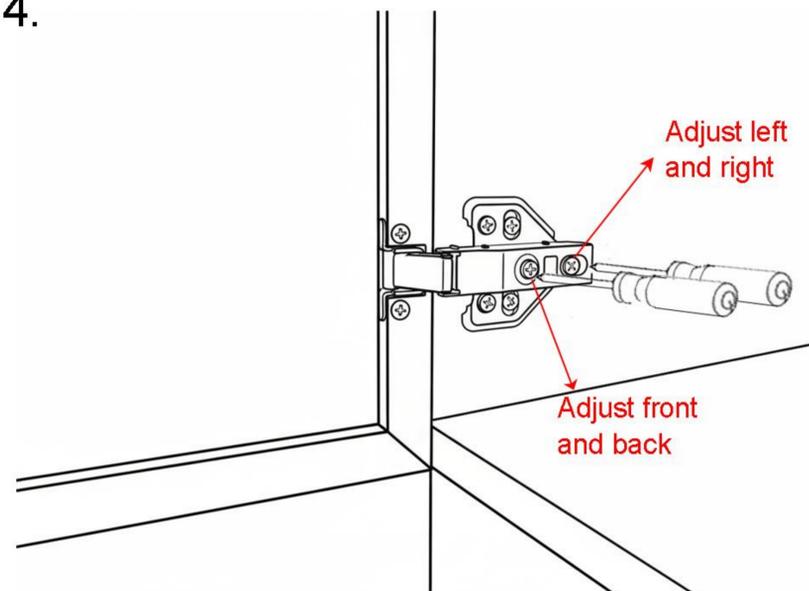

1.
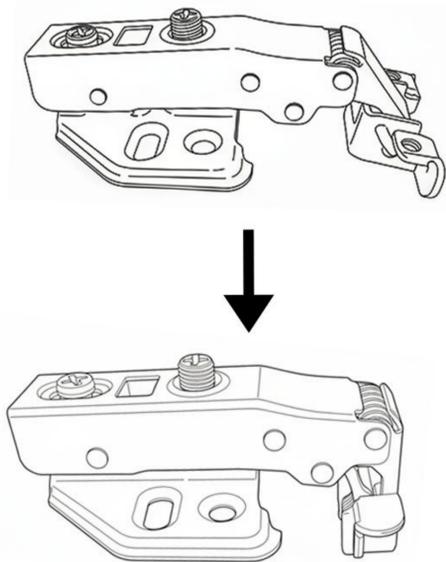

Fold the hinges as shown in the diagram.

2.

T   T
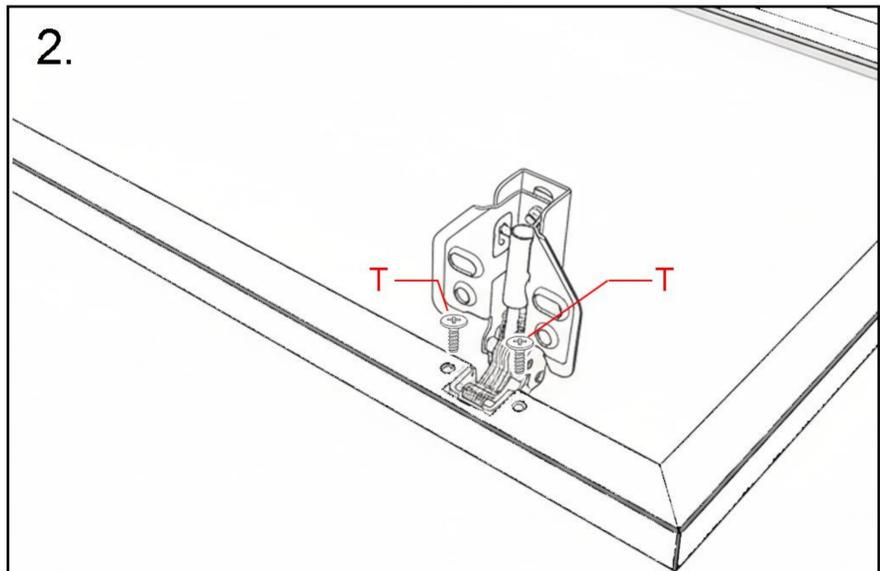

Install the hinge onto the door and ensure it is secure.
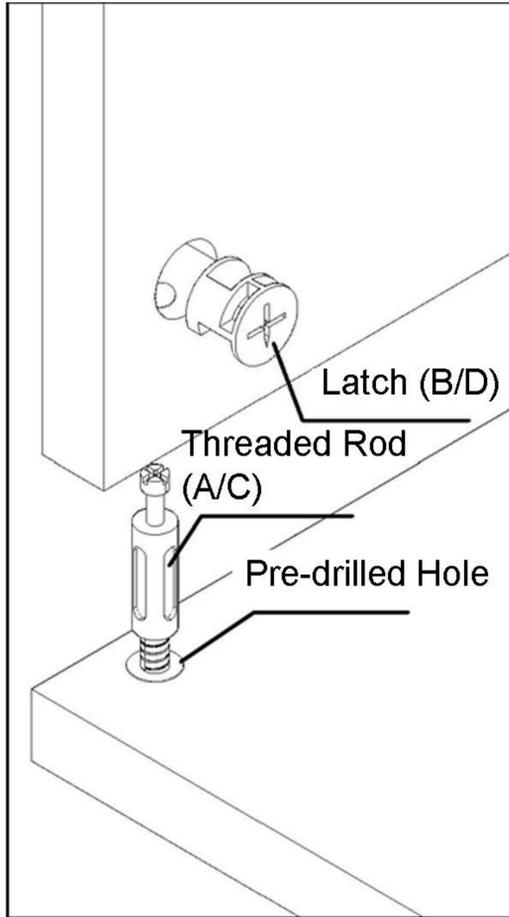

3.

H H
The height can be adjusted up and down here.

4.

Adjust left and right

Adjust front and back

Adjusting the gap between the door.

Installation Guide: Threaded Rod, Latch, Pre-drilled Hole
A + B is large, C + D is small

Latch (B/D)

Threaded Rod (A/C)

Pre-drilled Hole

1. Screw the A/C (Threaded Rod) into the Pre-drilled Hole
2. Insert the installed A/C into the corresponding hole of the other piece. Press B/D (Latch) into the hole. Note that the cross arrow corresponds to the insertion direction of the Threaded Rod.
3. Use a cross screwdriver to tighten Latch clockwise. Be careful not to use excessive force.

Q (Sliding Rail) Installation Instructions
When installing Q, use with screw E

1, Separate Q (Sliding Rail)

The main body part

The pull-out part

4, Install the main body parton board 6 (Left Side) and board 7

3, Pull the other end outward to separate.

2, Elastic clip strip, Press the board down to the bottom with your finger.

5, Install tthe pull-out part on board 16
